- ▶ Music that goes wherever you do
- ▶ Perfect calls with dual-mic technology
- ▶ Get help from The Google Assistant & Amazon Alexa
- ▶ Hear it like your favorite DJs do

CLUB700BT

Wireless On-Ear Headphones

Features and Benefits

Get in the middle of the action

You don't need a front-row ticket to get the front-row listening experience. Hi-Res audio and Legendary JBL Pro Sound give you a wide range of detail and clarity. Immerse yourself in the music just as your favorite artists intended.

Pump up the bass instantly

No fiddling around to get the sound just right. Just press the dedicated button on the right earcup for an instant bass boost and stay in the zone.

50 hours of non-stop fun

Don't worry about recharging for a while. With 50 hours of wireless play time, you'll need a rest before these headphones do.

Comfortable on-ear fit

JBL CLUB 700BT headphones are designed to let you get lost in the music, with cushioned earcups that feel like they are barely there.

Control your environment

Allow outside sounds in. With Ambient Aware and TalkThru you are in control. Stay safe in the city and have a chat without removing your headphones.

Music that goes wherever you do

Take your JBL CLUB 700BT headphones everywhere. Foldable and portable, they keep up with you wherever your day (or night) takes you, fitting neatly into your bag.

Perfect calls with dual-mic technology

No more searching for peace and quiet to take a call. The dual-mic technology on the JBL CLUB 700BT cancels out ambient noise when you are on a call, so you can make calls anywhere. From wire-free music, seamlessly connected thanks to Bluetooth 5.0, to hands-free calls, they keep up while you keep moving.

Get help from The Google Assistant & Amazon Alexa

Send a text message, play your favorite playlist, or check the weather, all without ever touching your phone. Choose The Google Assistant or Amazon Alexa through the My JBL Headphones app, and your Voice Assistant can handle all of the above and then some. It's as simple as tapping on the left earcup.

Hear it like your favorite DJs do

JBL teamed up some of the world's best DJs to capture the sound of their personal recording studios, so you can hear your favorite songs like they do. Simply tap the STAGE+ button in your My JBL Headphones app to choose from the DJ presets.
